

This document : **Annex 3 – 6 photographs of Aktau Oil Berths**

Is a graphic attachment of : **Traceca Corridor**

Traffic and Feasibility Studies - tnreg 9803

**Module E : Transport of crude oil and oil products on
the Caspian Sea**

**Technical report : Evaluation of existing facilities
(task E2)**

January 2001

Both available
on the TRACECA website : www.traceca.org

1. Access way to berths n°4 and n°5

2. Tanker berthed alongside berth n°5 (notice poor piping system)

3. Berth n°5. Details of capping beam, bollards, mooring ropes and fenders

4. Same areas as photo n°3, from the front part of the vessel

5. Fire-fighting tower between berths n°4 and n°5

6. Berths n°9 and n°10 (notice low-crested breakwater)
