PORT OF TRABZON

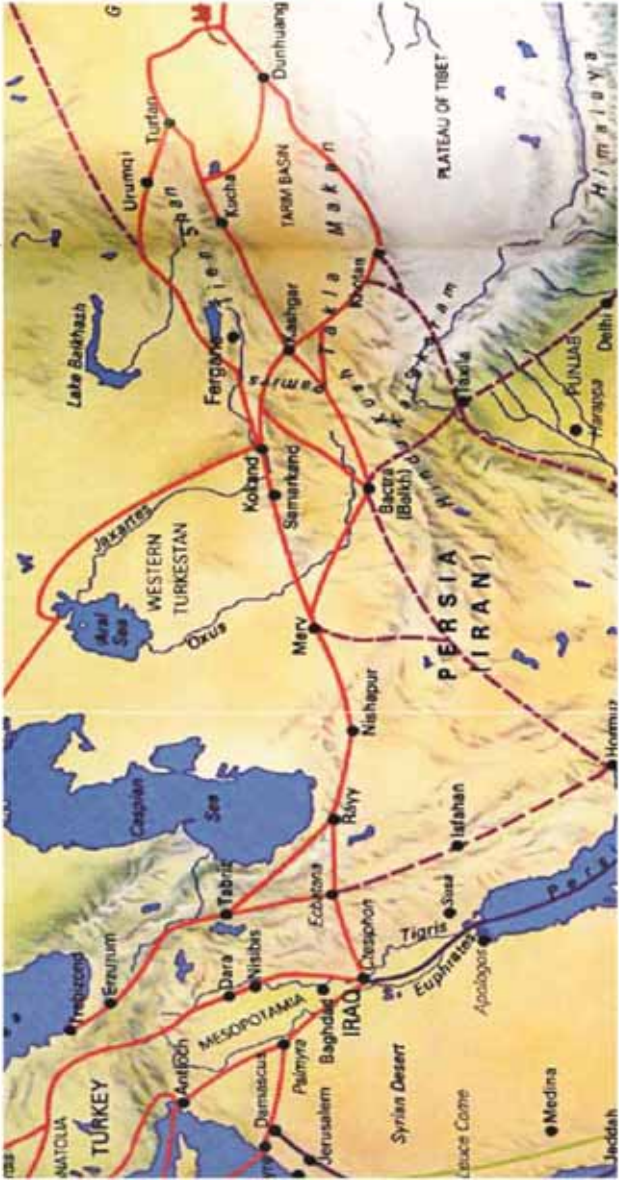

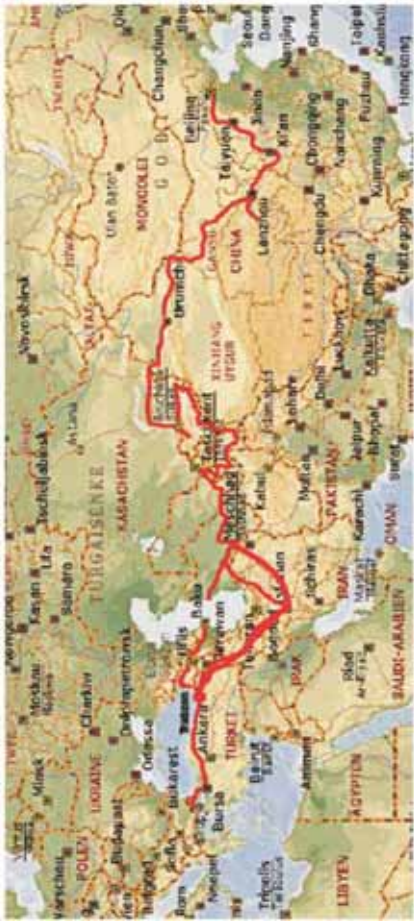

ONE OF THE OLDEST PORTS OF THE WORLD: THE PORT OF TRABZON

Administrative borders of Trabzon Port is located in the area in between Narik Cape in the east and İşkiti Cape in the west.

Without a doubt, the most important feature of Trabzon which distinguishes it from the surrounding cities is the existence of the major port of which the history dates back to ages together with its location.

GATE OF ANATOLIA ON THE SILK ROAD: TRABZON

Historical Silk Road which starts from China and lies till Europe has reached to Anatolia through Trabzon for ages. Trabzon is not only the most significant center in its region but also of an artery of commerce with a length of thousands of kilometers throughout the history.

ONE OF THE UNIQUE CITIES OF THE WORLD: TRABZON

In the world, there are some unique cities which excites some feelings in you. People of Trabzon which are located in the Blacksea Region of Turkey are well-known with their undeterred structures that defy the waves of the sea and steep slopes of the mountains. People of Trabzon like active folklore dances and football may be because of these structures. Trabzon has constantly been a significant city due to its location and port.

Port of Trabzon has both simplified and accelerated the trade in its region together with the enlarging and modernization works carried out after the privatization.
